Emergency and First Aid Procedures

If inhaled:

Remove to fresh air. If not breathing, give artificial respiration. Get medical attention.

In case of skin contact:

Immediately wash skin with soap and plenty of water. Remove contaminated clothing. Wash clothing before reuse. Get medical attention.

If swallowed:

Rinse mouth with water. Do not induce vomiting. Get medical attention.

If in contact with eyes:

Rinse cautiously with water for several minutes. Remove contact lenses if present and safe to do so. Continue rinsing. Get medical attention.

Signs and Symptoms of Exposure

Dichloromethane is metabolized to carbon monoxide that increases and sustains carboxyhemoglobin levels in the blood, reducing the oxygen-carrying capacity of the blood. Acts as a simple asphyxiant by displacing air. Symptoms of exposure include Burning sensation, Cough, Laryngitis, Shortness of breath, Inflammation and edema of the larynx and bronchi, Pneumonitis, Damage to the mucous membranes and upper respiratory tract, eye, and skin. May cause anesthetic effects, Difficulty in breathing, Headache, Dizziness, Nausea, Vomiting, Central Nervous System depression, Tingling sensation, Drowsiness, Convulsions, Conjunctivitis, Irregular breathing. Prolonged or repeated contact with skin may cause defatting and dermatitis. Ingestion may cause gastrointestinal discomfort.

Treatment

Delayed health effects possible. Treat supportively and symptomatically.

5. Fire Fighting Measures

Suitable Extinguishing Media

Use a Class A Extinguisher compatible with surrounding materials. (Dry chemical, carbon dioxide, water or foam).

Special protective equipment for fire fighters

Wear self-contained breathing apparatus (SCBA) for fire fighting if necessary.

Wear protective clothing to prevent contact with skin and eyes.

Flammable Properties and Hazards

Not flammable at ambient temperatures.

6. Accidental Release Measures

Personal Precautions

Avoid breathing vapors. Evacuate personnel to safe areas.

Protective equipment

Use personal protective equipment.

Emergency procedures

Ensure adequate ventilation.

Methods and Material for containment and cleaning up.

Absorb spillage with sand, absorbent pads. Do not let product enter the drain. Wear impermeable gloves, safety glasses and a lab coat when cleaning up the spill. Dispose of absorbent and spillage in compliance with local, state, and federal regulations.
