To: All Users of Glen Research Phosphonocarboxylates, including PACE monomers (phosphonoacetates), PFORM monomers (phosphonoformates), ePACE monomers (esterified phosphonoacetates), and ePFORM monomers (esterified phosphonoformates)

Our agreement with MetaSense Technologies allows us to sell to you Phosphonocarboxylate Monomers that are ultimately used for RESEARCH PURPOSES ONLY. In accordance with this agreement, we must inform you of the uses to which these products may be put, which are described below.

This product is covered by patents, US 6,693,187 and 7,067,641, patents pending and foreign counterparts owned by Lievre Cornu. Purchase of all or any of these products includes a limited license to use the product solely in the manufacture of Oligonucleotides for RESEARCH USE ONLY and its use is not authorized nor intended for diagnostic or therapeutic use. This product is for research or laboratory use only and is not to be administered to humans or animals or used for pharmaceutical, *in vitro* diagnostic, or commercial purposes without written permission from Lievre Cornu, LLC (e-mail: lievre_cornu@comcast.net). No other license is intended or granted through sale of this product to purchaser. Purchase other than by an authorized distributor or reseller does not include the right to resell or transfer this product either as a stand alone product or as a combination of another product or to otherwise commercially exploit this product. Any use of this product other than the licensed use without the prior express written authorization of Lievre Cornu, LLC is strictly prohibited. This license conveyed with the products specifically excludes (and you have no right to use the product or Oligonucleotides containing the product for): (a) therapeutic or diagnostic applications (including kits, pools, libraries and other products or services that incorporate Oligonucleotides containing the product), (b) any *in vivo* toxicity/safety study in support of an investigational new drug application (or foreign counterpart), or (c) resale (including sale of kits, pools, libraries and other products or services that incorporate the product or Oligonucleotides containing the product) if such activities have commercial application, any and all of which require a separate license from Lievre Cornu. Neither the product nor any product created through its use may be used in human clinical trials.

In the event you have a separate agreement with MetaSense or Lievre Cornu regarding this product that explicitly states that the foregoing is not applicable to you, your use of this product will be governed by the terms of such agreement. In no event does the limited license included with the purchase of this product expand or alter the scope of the license granted pursuant to such agreement.

Please sign below and return this page to acknowledge that you have received this notice. Thank you in advance for your cooperation. We require this signed copy prior to the first shipment of product.

I acknowledge that I have received this notification.

To: Oligo Synthesis Services that purchase Phosphonocarboxylate Monomers from Glen Research, including PACE monomers (phosphonoacetates), PFORM monomers (phosphonoformates), ePACE monomers (esterified phosphonoacetates), and ePFORM monomers (esterified phosphonoformates)

Our agreement with MetaSense Technologies allows us to sell to you Phosphonocarboxylate Monomers that are ultimately used for RESEARCH PURPOSES ONLY. In accordance with this agreement, we must inform you of the uses to which these products may be put, which are described below.

This product is covered by patents, US 6,693,187 and 7,067,641, and patents pending owned by Lievre Cornu. Purchase of this product includes a limited license to use this product solely (i) as an intermediary in the manufacture of custom oligomers ("Oligonucleotides") AND (ii) to sell Oligonucleotides as end-products which exclude kits, pools, libraries and other products or services that incorporate Oligonucleotides containing phosphonocarboxylate modifications. The purchaser/end-user will have no right to use this product or Oligonucleotides for: (a) therapeutic or diagnostic applications (including kits, pools, libraries and other products or services that incorporate Oligonucleotides containing the product), (b) any *in vivo* toxicity/safety study in support of an investigational new drug application (or foreign counterpart), or (c) resale (including sale of kits, pools, libraries and other products or services that incorporate the product or Oligonucleotides containing the product) if such activities have commercial application, any and all of which require a separate license from Lievre Cornu. Neither this product nor any product created through its use may be used in human clinical trials.

AS A CONDITION OF YOUR PURCHASE, THE FOLLOWING INSERT AND LABELING MUST BE SUPPLIED TO THE END-USER OF ANY CUSTOM OLIGONUCLEOTIDE PRODUCT YOU MANUFACTURE. FAILURE TO SUPPLY THE INSERT MAY RESULT IN CANCELLATION OF ORDERS.

1) Insert

This product is covered by patents, US 6,693,187 and 7,067,641, patents pending and foreign counterparts owned by Lievre Cornu. Purchase of this product includes a limited license to use the product solely for RESEARCH USE ONLY and its use is not authorized nor intended for diagnostic or therapeutic use. This product is for research or laboratory use only and is not to be administered to humans or animals or used for pharmaceutical, *in vitro* diagnostic, or commercial purposes without written permission from Lievre Cornu, LLC (e-mail: lievre_cornu@comcast.net). No other license is intended or granted through sale of this product to purchaser. Purchase other than by an authorized distributor or reseller does not include the right to resell or transfer this product either as a stand alone product or as a combination of another product or to otherwise commercially exploit this product. Any use of this product other than the licensed use without the prior written authorization of Lievre Cornu, LLC is strictly prohibited. This license specifically excludes (and you have no right to use this product for): (a) therapeutic or diagnostic applications (including kits, pools, libraries and other products or services that incorporate Oligonucleotides containing the product), (b) any *in vivo* toxicity/safety study in support of an investigational new drug application (or foreign counterpart), or (c) resale (including sale of kits, pools, libraries and other products or services that incorporate the product or Oligonucleotides containing the product) if such activities have commercial application, any and all of which require a separate license from MetaSense. Neither the product nor any product created through its use may be used in human clinical trials.

In the event you have a separate agreement with MetaSense or Lievre Cornu regarding these products that explicitly states that the foregoing is not applicable to you, your use of this product will be governed by the terms of such agreement. In no event does the limited license included with the purchase of this product expand or alter the scope of the license granted pursuant to such agreement.

2) Labeling

All oligonucleotides made with at least one phosphonocarboxylate monomer must be clearly labeled "sansFECT™ oligonucleotide" which is a trademark of Lievre Cornu.

Please sign below and return this page to acknowledge that you have received this notice. Thank you in advance for your cooperation. We require this signed copy prior to the first shipment of the product.

I acknowledge that I have received this notification.
